

Summary

Efficient Angular Developer with strong expertise in TypeScript, HTML and CSS, specializing in creating dynamic and responsive web applications. Proven ability to work with RESTful APIs, RxJS, and Angular CLI to deliver robust and scalable solutions. Known for methodical approach to coding, ensuring minimal errors and high-quality results. Dependable team player with solid work ethic, seeking to contribute skills and knowledge as Angular Developer.

Experience

Zestorm Technologies Pvt. Ltd

November 2021 to Present

Web Developer

- Developed single page applications using AngularJS, HTML5, CSS3 and JavaScript.
- Worked on migrating legacy apps from older technologies to modern frameworks, such as Angular 8+.
- Architected custom UI components with Angular directives to improve the user experience.
- Provided technical guidance to junior developers during their onboarding process.
- Built custom form validations using Reactive Forms module for dynamic data entry fields.
- Integrated third-party APIs into web applications using RESTful services and AJAX calls.
- Maintained existing codebase and refactored code for improved readability and performance.
- Performed regular code reviews of team members' work to ensure coding standards are maintained.
- Debugged complex issues within an Angular environment using Chrome DevTools and other debugging tools.
- Collaborated closely with designers, backend developers, product owners, and QA testers throughout the development process.
- Created reusable components for faster development of new features in future projects.
- Optimized application performance by utilizing caching techniques such as local storage and service workers.
- Tested applications in multiple browsers and devices to ensure cross-browser compatibility.
- Leveraged version control systems like Git for code management, collaboration, and efficient project history tracking.

Projects

Inductotherm Group Pune Pvt. Ltd.

- Inductotherm Group Pune Pvt. Ltd. is part of a global company that specializes in metal and materials technology.
- Led a collaborative effort to consolidate three separate applications into a single, integrated platform, enhancing efficiency and user experience.
- Conceptualized and designed the entire user interface, creating wireframes using Mockplus to visualize the application's layout and functionality.
- Developed a fully responsive application compatible with various devices and screen size, ensuring optimal user interaction across different platforms.
- Utilized Angular 17, Bootstrap and Angular Material to build a robust and visually appealing front-end, incorporating advanced features and best practices.
- Collaborated closely with a backend developer to integrate APIs and ensure seamless communication between the front-end and back-end components.

Catalyst Trusteeship Limited

- Catalyst Trusteeship Services, established in 1997, pioneered as the first non-banking private sector company registered with SEBI as a Debenture Trustee, evolving into a leading industry trustee today.
- Collaborated with stakeholders to design a user-friendly and intuitive interface, creating wireframes and prototypes.
- Built a responsive application compatible with various devices and screen sizes using HTML5, CSS3 and Bootstrap.
- Successfully implemented complex financial features, working closely with backend developers to address challenges and ensure accuracy.
- Utilized Angular, Angular Material and Ngx libraries to build a robust and efficient front-end.
- Employed RxJS with observable functionality to effectively bind APIs and handle asynchronous data flow.
- Took ownership of the entire front-end development process, from design to deployment.
- Managed deployments to UAT, STG and production environments, ensuring a smooth transition.

Education

MBA IT & System Management Narsee Monjee Institute of Management Studies	January 2022 - 2024
MSC Computer Science MIT World Peace University	January 2020 - 2022
BSC Computer Science MIT World Peace University	January 2017 - 2020
HSC (12th) Kaveri College of Arts Science and Commerce	January 2017 - 2020
SSC (10th) Abhinav Vidyalaya	January 2015 - 2017

Skills

- | | | |
|-------------------------|--|-----------------|
| • HTML5 | • CSS3 | • Bootstrap 5.2 |
| • Angular 11+ | • Angular Material | • Azure |
| • API Integration | • Testing & Debugging | • DevOps |
| • Responsive Web Design | • Version Control Systems: Github, SVN | • UI Design |
